Introduction to Statistics
TI - Scatter Plot

TO DRAW A SCATTER PLOT ON THE TI

1. Enter your paired data into two lists. The pairs should be on the same rows. We will use L1 and L2.

2. Press 2nd-STAT PLOT
3. Press ENTER to select Plot1
4. If necessary, press ENTER to turn on Plot1.
5. Use the arrows to maneuver to the plot that looks like a bunch of dots and press enter.

6. Make sure the Xlist and Ylist correspond to where you entered data.
7. Press ZOOM
8. Select ZoomStat
