TI - Entering Data

TO ENTER DATA IN A LIST ON THE TI

1. Press the STAT button.

2. Pressing the STAT button will bring up this dialogue:

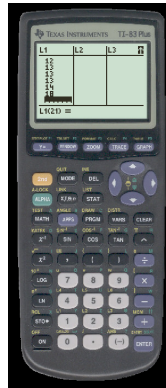

Press ENTER to select "1: Edit..."

3. You should now see several lists

You may move between the lists with the left/right arrows. Enter your data in list L1 by typing your numbers and pressing ENTER between the numbers.

You can move up and down a list to correct errors with the up/down arrows.

4. Press 2nd-QUIT when you are done entering data.
